

Project Title: Improving Ensemble Streamflow Prediction Using Interdecadal/Interannual Climate Variability and Model Uncertainties

PI Names: Thomas Piechota and Hamid Moradkhani

Email: thomas.piechota@unlv.edu and hamidm@cecs.pdx.edu

Progress Report Year 1

Figures:

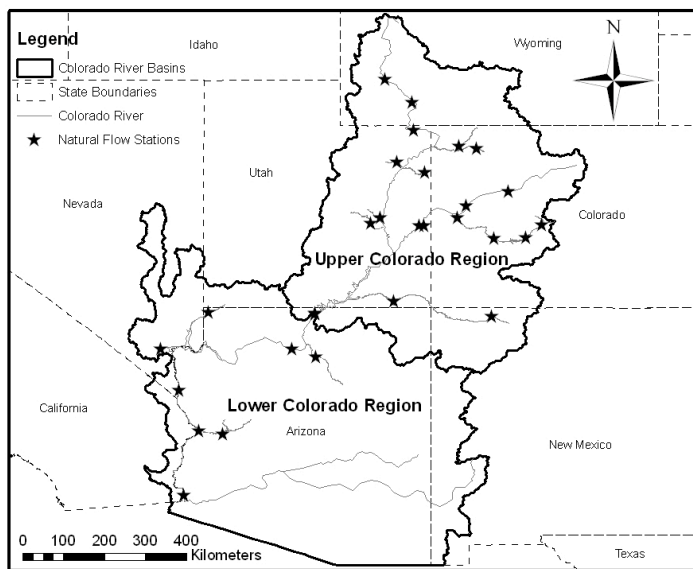

Figure 1 – Streamflow stations in the Colorado River basin

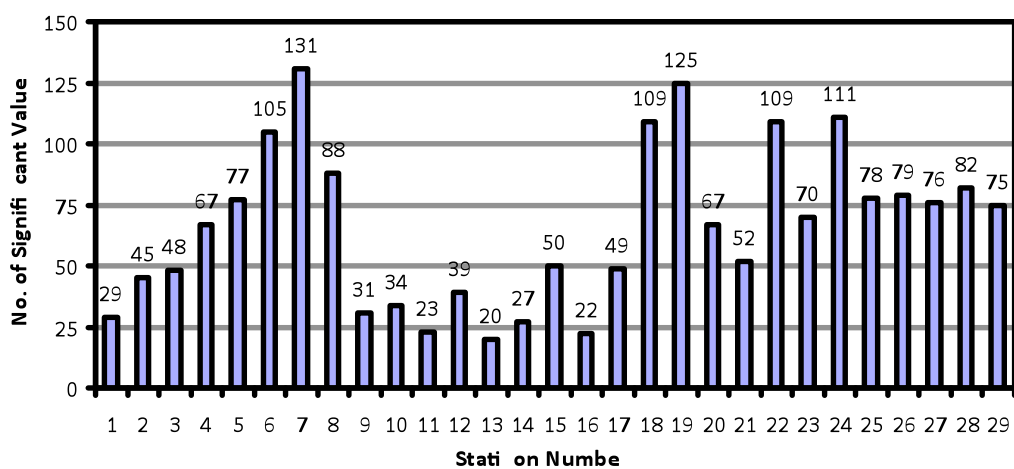

Figure 2 – Number of Significant Results – 95% level

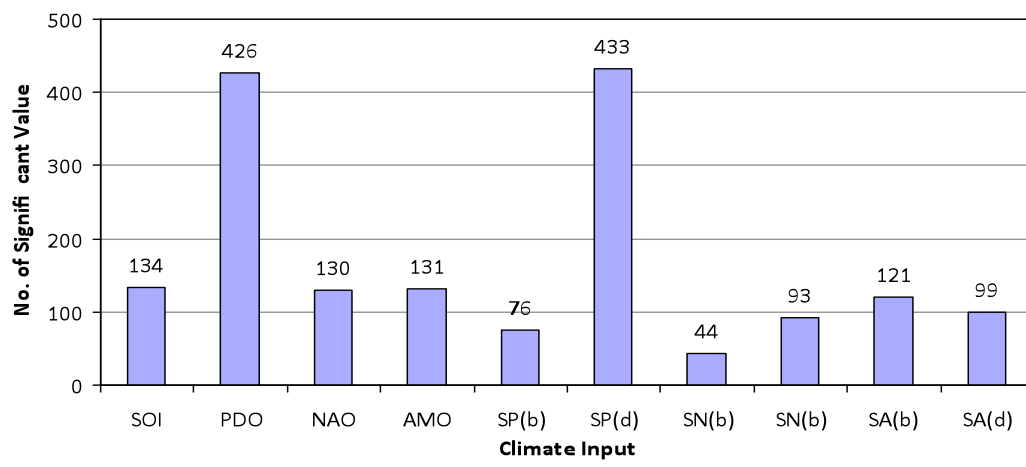

Figure 3 – Number of Significant Results – 95% level
